Thin Solid Films, *204* (1991) 487–489

Contents of Volume 204

Issue 1

Letters

Optical properties and electron energy-loss diagnostics of vanadium dioxide thin films L1
M. Thomas and E. Chain (Richardson, TX, U.S.A.)

The influence of internal stress on the amorphous structure of wet-coated films derived from peroxopolytantalate solution L5
A. Kishimoto, H. Sugimoto, T. Nanba and T. Kudo (Tokyo, Japan)

Electrical conductivity of 9,10-anthraquinone thin films L9
A. Latef and J. C. Bernède (Nantes, France)

Solution precursor chemical vapor deposition of titanium oxide thin films L13
J.-P. Lu, J. Wang and R. Raj (Ithaca, NY, U.S.A.)

Electronics and Optics

Material figures of merit for non-linear optics 1
A. G. Astill (Didcot, U.K.)

The photoelectric properties of thin films of rare earth monophosphides 19
J. Meng and Y. Ren (Changchun, China)

Preparation and Characterization

Sol–gel derived, air-baked indium and tin oxide films 25
D. M. Mattox (Rolla, MO, U.S.A.)

Material and electronic properties of boron-doped silicon films deposited from SiH_4–BCl_3–N_2 mixtures in an industrial low pressure chemical vapour deposition furnace 33
D. Bielle-Daspet, E. Scheid, C. Azzaro, B. De Mauduit and B. Pieraggi (Toulouse, France)

The properties of diamond-like carbon films prepared by r.f. discharges 49
K. W. Whang and H. S. Tae (Seoul, South Korea)

Amorphous hydrogenated silicon films produced by an expanding argon–silane plasma investigated with spectroscopic IR ellipsometry 59
A. T. M. Wilbers, G. J. Meeusen, M. Haverlag, G. M. W. Kroesen, D. C. Schram (Eindhoven, The Netherlands) and H. Kersten (Greifswald, F.R.G.)

The preparation, properties and applications of silicon nitride thin films deposited by plasma-enhanced chemical vapor deposition 77
M. Gupta, V. K. Rathi, R. Thangaraj, O. P. Agnihotri and K. S. Chari (New Delhi, India)

Crystallization of thin antimony deposits on amorphous carbon 107
G. Fuchs, M. Treilleux, F. Santos Aires, P. Melinon, B. Cabaud and A. Hoareau (Villeurbanne, France)

A comparison of NF_3 and NH_3 as the nitrogen sources for AlN crystal growth by metalorganic chemical vapor deposition 115
J. H. Edgar, Z. J. Yu and B. S. Sywe (Manhattan, KS, U.S.A.)

Electrochromic thin films deposited onto polyester substrates 123
C. Rousselot (Besancon, France), P. A. Gillet (Le Mans, France) and O. Bohnke (Besancon, France)

Deep level transient spectroscopy study of CaF_2/GaAs(111) and SrF_2/GaAs(111) structures grown by molecular beam epitaxy 133
S. Lanyi (Bratislava, Czechoslovakia), S. V. Novikov, N. S. Sokolov and N. L. Yakovlev (Leningrad, U.S.S.R.)

Electrochemical synthesis of semiconducting CdSe thin films 139
Z. Loizos and N. Spyrellis (Athens, Greece) and G. Maurin (Paris, France)

Crystalline TiB_2 coatings prepared by ion-beam-assisted deposition 151
J. P. Rivière, PH. Guesdon, J. Delafond, M. F. Denanot (Poitiers, France), G. Farges and D. Degout (Arcueil, France)

Ion bombardment induced silicide formation during sputter depth profiling of Ta/Si multilayer thin film structure as studied by x-ray photoelectron spectroscopy and auger electron spectroscopy . . 163
B. R. Chakraborty and S. Hofmann (Stuttgart, F.R.G.)

Langmuir–Blodgett and Related Films

A simulation for the transitional deposition of Langmuir–Blodgett films from Y to X type 175
A. Momose and Y. Hirai (Saitamia, Japan)

Condensed Matter Film Behaviour

Anodic oxidation of copper indium diselenide thin films 185
M. Z. Sardi and J. Vedel (Paris, France)

Kinetic study of currentless dissolution of bismuth oxide film in aqueous solution containing electroactive species 193
M. M. Hefny, A. S. Mogoda, S. A. Salih and H. E. El-Fiky (Giza, Egypt)

Parameters that influence the barrier properties of metallized polyester and polypropylene films . . 203
J. Weiss (Freiburg, F.R.G.)

Kinetics and crystallization studies by *in situ* X-ray diffraction of the oxidation of chemically vapour deposited SiC 217
F. Sibieude and J. Rodríguez (Font-Romeu, France) and M. T. Clavaguera-Mora (Bellaterra, Spain)

Resputtering effects during magnetron sputtering of Y–Ba–Cu–O 229
S. N. Ermolov, V. A. Marchenko, V. Z. Rosenflantz and A. G. Znamenski (Chernogolovka, U.S.S.R.)

Issue 2

Electronics and Optics

Interband dipole matrix elements of narrow band gap semiconductor films. 239
W. Okulski and M. Załużny (Lublin, Poland)

Studies on electron transport properties and the Burstein–Moss shift in indium-doped ZnO films . 255
A. Sarkar, S. Ghosh, S. Chaudhuri and A. K. Pal (Calcutta, India)

Surface oxidation effects on the electrical resistance of cermet thin films: X-ray photoelectron spectroscopy and Rutherford backscattering studies 265
A. D. Katnani, L. J. Matienzo and F. Emmi (Endicott, NY, U.S.A.)

Metallurgical and Protective Layers

Tribosynthesis of graphite–diamond films and its employment for obtaining structurally adaptive coatings 275
L. I. Bershadsky (Kiev, U.S.S.R.), D. S. Iosebidze and E. R. Kutelia (Tbilisy, U.S.S.R.)

Reactively ion plated TiN: effects of r.f. power density on the structure and electrochemical properties. 285
R. T. Carson, J. H. Givens, H. S. Savage, Y. W. Lee, J. M. Rigsbee (Urbana, IL, U.S.A.) and W. J. Croisant (Champaign, IL, U.S.A.)

Preparation and Characterization

Stoichiometry and impurities in sputtered alumina films on copper 297
P. Vuoristo, T. Mäntylä, P. Kettunen (Tampere, Finland) and R. Lappalainen (Helsinki, Finland)

Uniform thin chemically vapour deposited layers of high density on the inner surfaces of tube-shaped substrates 313
A. Kwatera (Cracow, Poland)

Electro-oxidation of propanol on a modified Ni–Ni_5P_2 electrode in an alkaline environment 341
A. Budniok and E. Kozłowska (Katowice, Poland)

R.f. planar magnetron sputtered ZnO films
I: Structural properties 349
F. C. M. van de Pol, F. R. Blom and Th. J. A. Popma (Enschede, The Netherlands)

R.f. planar magnetron sputtered ZnO films
II: Electrical properties 365
F. R. Blom, F. C. M. van de Pol, G. Bauhuis and Th. J. A. Popma (Enschede, The Netherlands)

Microstructural characterization of Fe–Al thin films 377
E. Bonetti (Bologna, Italy), S. Enzo (Venezia, Italy), G. Sberveglieri (Brescia, Italy), G. Valdre (Bologna, Italy) and S. Groppelli (Brescia, Italy)

Experimental studies of the light-induced effects in undoped hydrogenated amorphous silicon as a function of deposition conditions 385
K. Zellama, H. Labidi, P. Germain, D. Lortigues, L. Chahed, M. L. Theye (Paris, France), U. Besi, U. Coscia, G. Fameli, P. Menna (Portici, Italy), P. Roca, I. Cabarrocas and C. Godet (Palaiseau, France)

Electrochemical deposition and characterization of CdTe polycrystalline thin films 397
S. Bonilla and E. A. Dalchiele (Montevideo, Uruguay)

Anomalous incorporation of fluorine in tin oxide films produced with the pyrosol method 405
J. Ferrón and R. Arce (Santa Fe, Argentina)

X-ray photoelectron spectroscopy study of copper-containing amorphous carbon 413
P. A. Chen (Lungtan, Taiwan)

Langmuir–Blodgett and Related Films

A kinetic study of monomer and excimer fluorescence of pyrene lecithin in Langmuir–Blodgett films. 417
H. Lemmetyinen, M. Ikonen and J. Mikkola (Helsinki, Finland)

Fluorescence of pyrene intramolecular excimers in Langmuir–Blodgett films. 441
N. Sadovskii, P. Shirov, M. Kuzmin (Moscow, U.S.S.R.), H. Lemmetyinen and M. Ikonen (Helsinki, Finland)

Langmuir–Blodgett processing of poly(3,4-dibutoxythiophene) 451
C. L. Callender, C. A. Carere (Ottawa, Ont., Canada), G. Daoust and M. Leclerc (Montreal, Que., Canada)

Condensed Matter Film Behaviour

Characteristics of metal chalcogenide solar control films with a protective polymer coating 459
A. M. Fernández and P. K. Nair (Morelos, Mexico)

High resolution studies of interfacial effects by small and large angle X-ray diffraction 473
G. Gładyszewski (Lublin, Poland)

Author Index. 485
